

Bridgend Farmhouse

The Salvage Club: Bike Refurbishment Skills for Young People

Bridgend Farmhouse community hub in South East Edinburgh is delighted to be able to offer new skills development opportunities as a result of funding received from the SafeDeposits Scotland Community Fund. This is part of a wider Active Travel Strategy which Bridgend Farmhouse hopes will encourage more people in South East Edinburgh to choose cycling as a way of making short journeys.

Chair of Bridgend Farmhouse, John Knox, commented: "As a result of this generous award we will be able to provide 30 young people with the opportunity to come and learn new skills in our bike workshop with tuition provided by our qualified bike mechanics. It is a great way to build confidence and learning."
