

NEW PRODUCT!

ALGAE COMPLETE™

OUR MOST COMPLETE ALGICIDE!

Introducing a new weekly, dual-action algicide formula that uniquely combines the benefits of **both quat and copper-based algicides** to provide broader-spectrum control of all types of algae.

Algae Complete was developed with the understanding that various algae types respond in unique ways to specific technologies, making a hybrid product a more effective solution. Additionally, Algae Complete was formulated to work in and with the various pool sizes and surface finishes.

The result is a product that provides your customers **comprehensive, long-lasting prevention** that fits well with any sanitizer program.

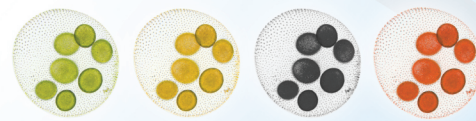

The 1L easy-pour, easy-dose bottle features a 120 mL dosing cap for convenient application.

If an algae outbreak does occur, there's no need to buy another product because Algae Complete **can serve as a remedy treatment** by using the stronger dose as noted on the label.

Algae Complete satisfies **more** pool owners, treats **more** pool types and prevents algae in **more** ways than any other algicide in our line, making it the new, standout performer for your business.

This distinctive, premium product features long-lasting, all-around performance:

- Prevents and kills **green, mustard, black, red algae and diatoms**

- For **ALL** pool sizes and **ALL** pool types

- ✓ **POWERFUL**
- ✓ **COMPREHENSIVE**
- ✓ **FAST-ACTING**

Part No. **5872 (12x1L)**
