

KNOW BEFORE YOU GO ELECTRIC

t.uber.com/ev_incentives

Check your eligibility for up to \$7,500+ in incentives

- Get up to \$7,500+ in savings on a qualified EV through government incentives. Visit t.uber.com/ev_incentives to get personalized information about which incentives you might be eligible for when purchasing an electric vehicle. Income restrictions, vehicle price caps, and state regulations apply. Visit your nearest dealership for more information.¹
- You can also use this tool to compare potential EV total costs of ownership with a gas model.
- Get \$1,000 when you report your purchase of an electric vehicle through TrueCar and complete 100 trips in the vehicle with Uber within 45 days of purchase.⁶

t.uber.com/ev_charging_map

Stop paying for gas and save on charging

EV charging can cost less than gas, per driving mile.

- Use Uber's charging map to find fast chargers near you. The charging map is accessible directly within the app, indicated by a lightning bolt icon.
- Earn between 4% and 12% cash back based on your Uber Pro status on all eligible EV charging purchases on the Uber Pro Card.²
- Save up to 45% off fast charging session costs with EVgo.³

t.uber.com/green_rides

Get access to Uber Green & Comfort Electric

- All EVs are eligible for Uber Green trips. In addition, if you have a 4.85+ rating and have completed at least 100 trips, certain premium EVs will also give you access to Comfort Electric, a premium option that riders pay more for.⁴
- Plus, earn up to \$210 extra every 30 days through Uber's Zero Emissions incentive.⁵

Tell us about your test drive experience!

- We would love to hear from you! Scan the code to fill out this form telling us about your test drive experience.

Go electric & join over 140,000 EV drivers on Uber ⚡

Revised January 2025

Full offer details available when you scan the QR code, for additional offer terms see below.

¹Government/third party incentives are provided for your informational purposes only. Any information provided here does not constitute tax or legal advice and you should check with your legal or professional advisor. Governmental/third-party offers and Uber offers are subject to change. Eligibility for non-Uber incentives or offers is determined by the entity offering the incentive. Uber has no liability for these incentives or offers.

²Base cash back benefit is between 4% and 12% for EV charging, depending on your Uber Pro Tier status. Total cash back you can earn with the Uber Pro Card on EV charging is \$100 per month.

³Drivers with Uber Pro Gold, Platinum, and Diamond status can save up to 45% on EVgo session costs, with no monthly fees. Drivers with Uber Pro Blue status can save too, with no monthly fees and up to 15% off session costs. Drivers must have been cleared to drive with Uber and be active on the platform. Prices and discounts are subject to change or withdrawal at any time and without notice, and may be subject to other restrictions set by the partner. Visit the partner's website for a full description of the terms and conditions applicable to your rental, vehicle purchase, product, or service, including whether taxes, gas, and other applicable fees are included or excluded. Uber is not responsible for the products and/or services offered by other companies, or for the terms and conditions (including financial terms) under which those products and/or services are offered.

⁴Comfort Electric, Comfort, and Uber Green are available in select cities. Please check the app for more information on availability and offer restrictions

⁵The Zero Emissions incentive is available every 30 days to eligible drivers in the U.S. for a limited time. The last day for a driver to be eligible to participate in the incentive is April 1, 2025 at 10am PT. Offer only available to eligible rideshare drivers who provide zero-emission rides and otherwise meet the incentive criteria during their 30-day incentive period(s). Fleets and Fleet Drivers are eligible until January 6, 2025 at 10am PT, but are not eligible from 10am PT January 6, 2025 to 10am PT April 1, 2025. A Fleet is defined as a vehicle supplier that manages 1 or more vehicles and acts as a payee for 1 or more drivers for trips completed on the Uber platform. A Fleet Driver is defined as a driver who utilizes a vehicle provided by a Fleet to complete trips on the Uber platform. Only battery electric vehicles and fuel cell electric vehicles are eligible. Hybrid and plug-in hybrid vehicles are not eligible. Uber Eats, Uber Connect, and other delivery trips are not eligible. Canceled rides do not count. Drivers who complete at least 200 EV rides in a 30-day incentive period will receive the \$210 incentive; drivers who complete less than 200 EV rides in an incentive period will not receive the \$210 incentive. Drivers can earn a maximum of \$210 per 30-day period. 30 day incentive periods will be unique to each eligible driver. In cases where the vehicle information provided to Uber is not sufficient for determining whether the vehicle is an EV, the vehicle will not be eligible to receive the incentive. Drivers should become eligible for the incentive within approximately 24 hours of when they take their first trip in a zero-emission vehicle, though sometimes longer. Incentive payments will be added to a driver's account after completing the incentive criteria. Uber reserves the right to (1) withhold or deduct payments in the event of error, suspected fraud, illegality, or violation of driver terms or these terms, (2) change the trip requirements, incentive payouts, or other offer details at any time and without notice, and (3) disqualify a vehicle at any time that does not meet the eligibility requirements.

⁶In order to be eligible to receive the \$1,000 (the "Driver Incentive") from the TrueCar / Uber 2025 EV Promotion ("EV Promotion"), drivers must: 1) Use TrueCar for Drivers on Uber (at <https://uber.truecar.com/>) to receive an offer on a battery electric vehicle (an "Eligible Vehicle of Interest") from a TrueCar Certified Dealer and subsequently purchase an Eligible Vehicle of Interest from that dealer within 90 days of receiving the offer and between January 1, 2025 and March 31, 2025 (the "Eligible Purchase"), 2) The driver must report the Eligible Purchase to TrueCar within 45 days of purchase at <https://uber.truecar.com/report-purchase/>, and 3) The driver must register the Eligible Purchase by adding vehicle details to their Driver Profile and completing 100 trips with the Eligible Purchase within 45 days of purchase. Driver cancelled trips do not count as completed trips.
