

Adding or editing lead destinations

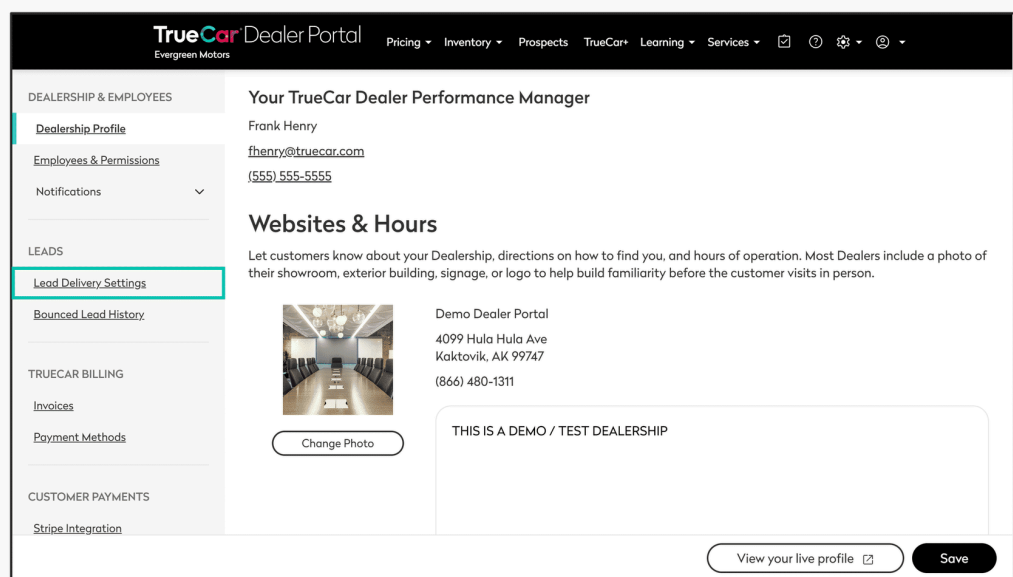

1 Step 1: Open dealership settings

Hover over the **cogwheel** and click on 'Dealership Settings.'

2 Step 2: Navigate to lead delivery settings

Click on 'Lead Delivery Settings' in the left menu.

Adding or editing lead destinations

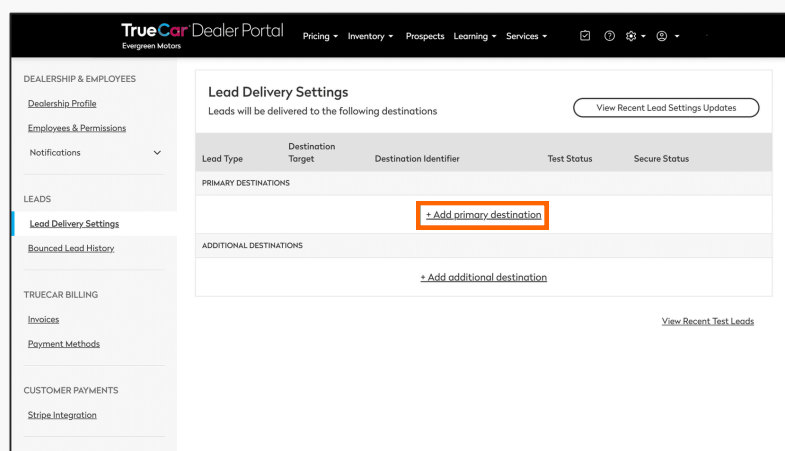

3 Step 3: Add primary destinations

Click on '**Add primary destination**.'

If you already have lead destinations set up, you'll be able to edit your existing destinations instead of adding a new one.

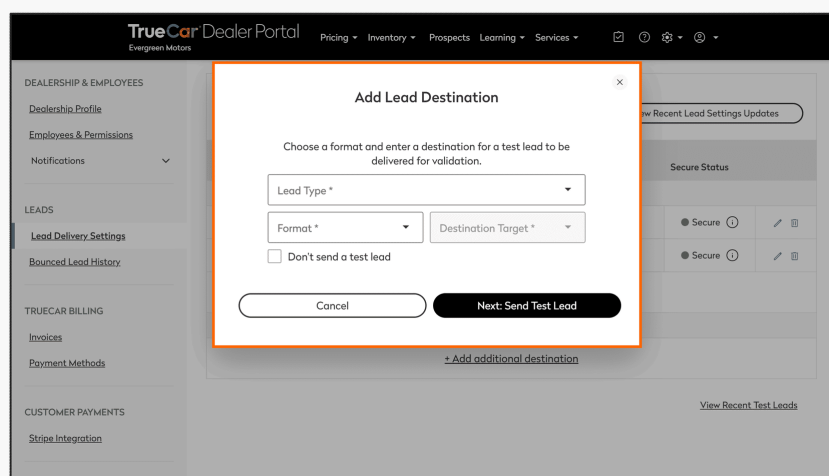

NOTE: You will set up two primary destinations. One for new and one for used.

4 Step 4: Input details and send a test lead

You'll have a window to add your lead delivery details. Add the Lead Type, Format, Destination Target, and Email/Eternal ID.

Make sure you send a test lead!

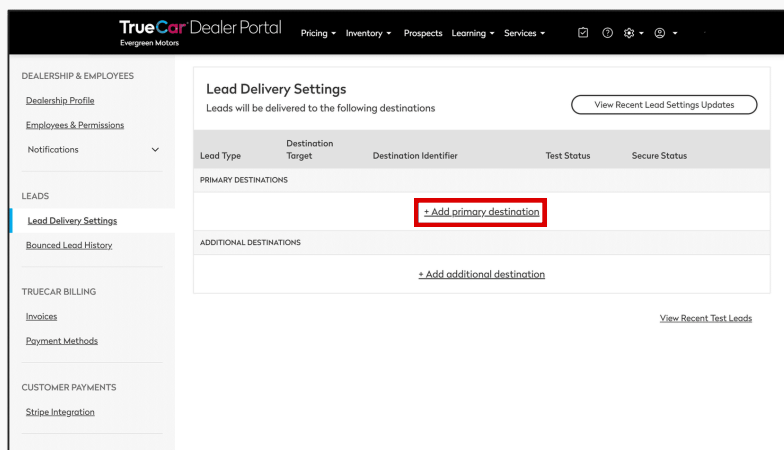

Adding or editing lead destinations

**5**

Step 5 (optional): Add additional destinations

You can repeat this process to add additional destinations.

Lead notifications

Lead Notifications

Under '**Notifications**' in the dealer settings menu, you also have the ability to toggle who gets notified when there is a Bounced Lead, New Car Lead or Used Car Lead.
