### Get Your Beautiful, Healthy Smiles... Faster!

AcceleDent® gives patients faster and more comfortable orthodontic treatment with braces and aligners. AcceleDent Optima™ is the most advanced accelerated orthodontic device with a comprehensive suite of technology driven features. Simple and easy-to-use, AcceleDent is clinically tested to speed up tooth movement while reducing orthodontic discomfort.

### What is AcceleDent?

AcceleDent Optima is clinically proven to accelerate tooth movement by up to 50%. It's the first orthodontic device of its kind to offer accelerated orthodontic treatment and help decrease orthodontic discomfort in a noninvasive, nonsurgical way. AcceleDent Optima is also the first and only accelerated orthodontic device to connect patients and practices with an app to monitor, monitoring, direct messaging & rewards. AcceleDent is only available by prescription from your doctor.

#### ***Safe & Effective***

Leading doctors around the world use and endorse AcceleDent's SoftPulse Technology® as safe and effective in accelerating tooth movement and reducing the discomfort associated with orthodontics.

#### ***Lightweight & Easy-to-use***

AcceleDent was designed to fit your lifestyle. Use the hands-free device for just 20 minutes a day during routine activities such as reading, watching TV, listening to music, browsing the internet or showering.

### How Does AcceleDent Work?

By inserting the mouth piece fitted around your braces or aligners for just 20 minutes a day. AcceleDent speeds tooth movement through the use of SoftPulse Technology®. AcceleDent's patented SoftPulse Technology applies precisely calibrated vibrations called micropulses that transmit through the roots of your teeth to the surrounding bone. This gentle vibration helps increase the cellular activity and speeds the rate in which your teeth can move. AcceleDent's gentle micropulses can also reduce orthodontic discomfort for patients of all ages, including children, teens and adults.

#### ***Designed to Fit Your Lifestyle***

AcceleDent Optima combines high-tech performance features and a comprehensive app to enhance your accelerated orthodontic experience and empower you to become a full participant in your treatment.
