Privacy statement

The data you provide (name, first name, mining site, function, registration number, data, locker number) are processed by the Province of Limburg, as data controller, for heritage, research, archival and educational purposes within the framework of documenting the mining history and the registration of the lockers.

The address, phone number and email data provided are not mandatory and are used exclusively to – if necessary – confirm the accuracy of the data given and to inform you about the further course of the project, for instance when the data will be installed at the lockers or are used in heritage initiatives.

The data processing is only done with your permission. Your data can be entered in the heritage archives and the mine experience trail Mineset. The data you provide can be made publicly accessible in the framework of exhibitions, publications and research.

The Province of Limburg processes your personal data in accordance with applicable legislation regarding data protection, including the General Data Protection Regulation (GDPR) and in accordance with the principles of lawfulness, transparency, purpose limitation and minimal data processing. Your personal data are being kept by the Province of Limburg, in accordance with the applicable archive and retention periods.

You have the right of access to, correction or deletion of your data (if compatible with archiving purposes) and can withdraw your consent at any time via:

- mail to griffie@limburg.be
- letter to “Griffie, provincie Limburg”, Universiteitslaan 1, B-3500 Hasselt

You can find more information about the processing of your personal data on www.limburg.be/privacybeleid.

By submitting this form, you give permission to process your personal data for the mine experience center Mineset, including the documenting of the lockers, and to use your data in exhibitions, publications and heritage presentations of Mineset
